SUMMARY

I am a passionate Computer Engineering student currently pursuing a Bachelor's degree at GCOEARA, Pune. I have hands-on experience in web development with a strong foundation in the MERN stack, alongside active involvement in technical clubs and projects that enhance my skills in coding, problem solving, and teamwork. I am committed to continuous learning in the tech field and enjoy contributing to collective projects

EDUCATION

Government College of Engineering & Research, Avasari Khurd (GCOEARA), Pune

July 2023 – Present

Bachelor of Engineering in Computer Science and Engineering

- Relevant Coursework : Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming (C++/Java), Software Engineering.
- Additional Coursework : Web Development (MERN Stack).

EXPERIENCE

Enlectic Research Center – Computer Engineering Club

July 2024 – Present

Member / Developer

GCOEARA, Pune

- Contributed to project-based learning, coding sessions, and technical events focused on Computer Engineering.
 - Collaborated with team members to build mini-projects and assist in workshops, improving teamwork and technical skills.
 - Supported research-focused activities and explored modern technologies through club-led initiatives.
 - Enhanced problem-solving and development abilities by participating in hands-on technical tasks.

PROJECTS

Library Management System

Technologies: React.js, Node.js, Express.js, MongoDB

- Built a full-stack system for managing books, users, and issue/return workflows.
- Implemented secure authentication, admin controls, and real-time book availability tracking.
- Streamlined library operations by automating manual record handling and reducing errors.

Food Delivery Application

Technologies: React.js, Node.js, Express.js, MongoDB

- Developed a food ordering application tailored for a single restaurant, enabling menu browsing, cart management, and order placement.
- Implemented features for real-time order updates, user authentication (JWT), and admin dashboard for managing menu items and orders.
- Optimized UI for fast ordering and improved backend response time through efficient API design.

TECHNICAL SKILLS

MERN Stack Development : MongoDB, Express.js, React.js, Node.js,

Frontend Technologies : HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS

Backend & API Development : RESTful APIs, JWT Authentication, Middleware,

Database Skills : MongoDB, MySQL

Programming Languages : JavaScript, Java, C++,

Tools : Git, GitHub, VS Code, Postman, NPM,
